

Informative Writing:

There are five groups of animals.

The groups are: reptiles, birds, mammals, amphibians, and fish

Animals in each group have things that are the same.

Write and tell about what makes a penguin a bird.

Make sure you name a topic, write more than one fact about the topic and write a conclusion.

They have feathers.

They lay eggs.

They have feathers.

They lay eggs.

1st Grade Informational Responses

Prompt: There are five groups of animals. The groups are: reptiles, birds, mammals, amphibians, and fish. Animals in each group have things that are the same. Write and tell about what makes a penguin a bird.

Teyhvefethers.

Teylaegs.

Translation:

They have feathers.

They lay eggs.

Topic: This student has not named a topic.

Facts: This student has stated some facts and they do relate to the topic.

Explanation: Student was given the topic, so we know the facts relate to the topic even though the topic was not given.

Sense of Closure: This student did not provide a sense of closure.

Capitals: This student has used correct capitalization all of the time.

Ending Punctuation: This student has used correct ending punctuation all of the time.

Complete Sentences: This student has written complete sentences all of the time.

Explanation: When a first grade teacher can translate the sentence and it is complete, then we consider it as writing in complete sentences. The lack of spacing makes this difficult to read, however we consider these sentences as complete.

Spelling: This student has used common spelling patterns some of the time.
