

3rd Grade Opinion Responses

Prompt: In your opinion, is it important to take care of our environment?

The environment is where we live. It is very important to take care of the Earth. First, air is an important thing in our world, because it helps us breathe. If we have too many smokestacks, or have too many cars running, we would have too much pollution in the air. That's why it's important to walk, or ride bikes. Next, water is very important also. It can be found in ponds, lakes, canals, and much more. It is a liquid used in cooking, drinking, and much more. Finally, recycling is important. We can throw paper away, and it gets reused. Have you heard of the three R's? Reuse, Recycle, Reduce. You can turn plastic into benches. In conclusion, I think the environment is a great place.

This student has introduced the topic about "The environment."

This student has stated a well-developed opinion about the topic.

This student has written several well-developed reasons supporting their opinion.

This student has used a variety of linking words/phrases.

This student has created a well-developed organized structure showing how reasons support their opinion.

This student has provided a related concluding statement.

The student has consistently used language conventions correctly.

3rd Grade Opinion Responses

Prompt: In your opinion, is it important to take care of our environment?

In my opinion I think everybody should recycle because recycling is awesome!! Here's why I think recycling is important. First, if we don't recycle it can be bad because people will cut down all the trees. Next, it can also be bad for the water if we don't recycle and the fish need the water to live and we need the water to drink. Then, if everybody cuts down all the trees we won't have enough air to live because the air is yucky!! And that's why I think recycling is important and A.W.S.O.M.E.!!!

This student has attempted to introduce a topic about "recycling."

This student has attempted to state an opinion that does not clearly match the topic.

This student has written more than one reason supporting their opinion.

This student has used more than 2 linking words/phrases.

This student has created a well-developed organized structure showing how reasons support the opinion.

This student has provided a related concluding statement.

The student has consistently used language conventions correctly.

3rd Grade Opinion Responses

Prompt: In your opinion, is it important to take care of our environment?

I think we should recycle because it would help earth be nice & beautiful and clean. First, I think recycling is important because we won't have to cut down a lot of trees. Next, I think recycling is important because we can get sick from the pollution if we don't recycle. Finally, I think recycling is important because you get four hours of electricity from recycling one can each. Those are three reasons why I think recycling is important.

This student has attempted to introduce a topic about "recycling."

This student has attempted to state an opinion that does not clearly match the topic.
